CHEMICAL STORAGE TANKS

Being a client-centric organization, we are engaged in offering a distinct collection of **CHEMICAL STORAGE TANK**. As the name implies offered tank is used for storing chemical liquid in different industries. It is high resistance to various industrial chemicals and acids, which is achieved by special chemical treatments to the raw material during the extrusion process. In addition the chemical treatment given depends on the category of chemical that will be stored in the tanks. Hence each chemical tank is a unique product depending on the application. Our offered tank is rigorously tested by our quality inspectors against diverse parameters in order to deliver a defect-free range at clients end. Moreover, the offered tank is extensively appreciated by our clients for featuring variegated attributes like high quality and durability.

AVAILABLE ONLY IN BLACK

DESIGNED FOR YOUR CONVENIENCE
EXCELLENT HYGIENE & SAFETY

Chemical storage tanks should maintain service temperature between **10°C to 60°C**.

Features

- 100 % Virgin Raw material Base
- Excellent compatibility with large number of Chemicals
- Excellent UV Resistance
- Durability
- Heavy in Weight
- Virtually No Maintenance
- Rust Proof

PROTECTION

EXTRA RIBS FOR
HEAVY STRENGTH
